PR19 PROGRAMME UPDATE PROGRESS UPDATE

- High level strategy agreed by Board ambitious and distinctive plan
- Long term strategy development and initial review by company Executive Leadership Team
- Business Plan content structure development and initial scoping sessions held with lead authors
- Response to Ofwat draft methodology consultation:
 - we support Ofwat's high level themes and objectives
 - largely content with the structure and regulatory mechanics
 - but feel the change in methodology on cost of equity is not robust
- Phase 1 customer engagement and triangulation
- Scoping and design of phase 2 relative priorities research project
- Procurement of external partner to support production of submission
- Introduction of Quality Dashboard process
